

Newsletter #6

(formerly SIGMA Newsletter)

Dear friends of AVTECH!

Fall has taken off with big news from us. On August 16th we announced the contract with Met Office (UK). This means we are the only company that can offer you the most accurate weather forecast in the world for the aviation industry. We have made a video explaining about the **10K Weather** and why it matters for Airlines. To watch it - click on the YouTube link below.

The formerly named "SIGMA app" is now branded "proFLIGHT" and officially released. More information is available upon request (proflight@avtech.aero) or just sign up for a free trial below.

All flight related weather information presented and visualized in a single place. Powered by the Met Office 10KM Resolution Global Weather model proFLIGHT can improve the safety and comfort of passengers and crew. The forecast is tailored to the flight's trajectory and time. Turbulence can be avoided or reduced. If turbulence is encountered, the crew will have the best information possible for the climb/descent decision. We offer a 3-month free trial and you can [sign up](#) now!

Scientifically proven

It is true - a research study, initiated by Lufthansa Cargo and conducted by Aachen university the results show that using the Aventus system reduces the wind error by 50%! If you would like to know more, please let us know and we can provide the full report. Another study, made by Norwegian Airshuttle A/S, proved that by using our technology the airline reduces CO2 emissions by 16,000 tons per year. [Read more](#) >

Webinars

We recently hosted a webinar at AirCRAFT IT on 27th September which raised a lot of attention and in case you missed it there is a recorded version available on the [AirCRAFTIT website](#). If you don't have a member login already, it is free to register.

Events

We would love to meet you and give you a personal demo at any of these events coming up in November. Both these conferences take place in London, UK.

- [EFB Users Forum XVII, 13-14 Nov](#)
- You will find us at stand **3A!**
- [12th Annual Airline & Aerospace MRO & Flight Operations, 27-28 Nov](#)
- You will find us at stand **E19!**

Drop us an email to arrange for a meeting at any of these conferences: sales@avtech.aero

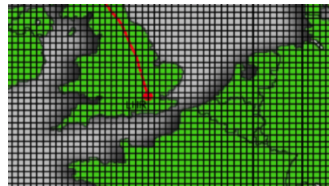

Kind regards,

The AVTECH Team!
