

Newsletter #7

Dear friends of AVTECH!

With 2019 well on its way, we would like to take the opportunity to share what the new year has in store, as well as thank you all for a great 2018. We hope to meet you, perhaps at any of the conferences that AVTECH will participate in during the coming months.

Outlook for 2019:

- Extended offer for a **3-month free trial** of proFLIGHT and you can [sign up](#) now!
- Even more precise weather forecast - we are looking at 1hr refreshes
- proFLIGHT users give us continuous feedback of improvements. Several updates are planned for 2019
- Aventus SIGMA & NOWCAST continues to be the most advanced platform for providing high quality weather data to the aviation industry.
- More case studies on the benefits of using Aventus solutions
- Upcoming conferences:
 - 12-13 March, Munich - [Connected Aircraft Europe](#). AVTECH will be hosting a technical workshop and exhibiting*
 - 26-27 March, Amsterdam - [Airline & Aerospace MRO & Flight Operations](#) - Exhibiting and speaking*

Highlights from 2018:

- LuftHansa Cargo released a report on how using Aventus winds contributed to save fuel cost - send us an [email](#) to get a copy!
- +6 000 000 wind uplinks 99,9% availability
- Met Office (UK) and AVTECH signed a 3-year contract to include 10K grid solution weather in all Aventus solutions.
- A great video explaining how the 10K weather actually works when used in aviation forecasts. **Click** on the link below!
- We hosted a webinar on the topic "Advanced real-time weather briefing and alerts pilot app". Recorded at [AirCraftIT](#)
- proFLIGHT, our brand new app for pilots, all flight-related weather information presented and visualized in a single place.
- AVTECH and Norwegian AirShuttle signed an agreement to implement the Aventus services as a permanent part of Norwegian operations
- Granted European patent for the Aventus technology
